

# 2025 Schedule of Preventive Care Services

This information highlights the preventive care services available under this *coverage* and lists items/services required under the Patient Protection and Affordable Care Act of 2010 (PPACA), as amended. It is reviewed and updated periodically based on the recommendations of the U.S. Preventive Services Task Force (USPSTF); Health Resources and Services Administration (HRSA), Centers for Disease Control and Prevention (CDC), U.S. Department of Health and Human Services (HHS), and other applicable laws and regulations. Accordingly, the content of this schedule is subject to change.

Your specific needs for preventive services may vary according to your personal risk factors. It is not intended to be a complete list or complete description of available services. In-network preventive services are provided at no Member cost-share. Additional diagnostic studies may be covered if *medically necessary* for a particular diagnosis or procedure; if applicable, these diagnostic services may be subject to cost-sharing. Members may refer to the benefit contract for specific information on available *benefits or contact Customer Service at the number listed on their ID card.* 

## Schedule for Adults: Age 19 years and older

GENERAL HEALTHCARE*		
For routine history and physical examinatio	n, including pertinent patient education. Adult c	ounseling and patient education include:
Women		
Breast Cancer Chemoprevention	<ul> <li>Hormone Replacement Therapy</li> </ul>	
Contraceptive Methods/Counseling <sup>1</sup>	(HRT) – Risk vs. Benefits	At least annually
Folic Acid (childbearing age)	Urinary Incontinence Assessment	
Men and Women		
<ul> <li>Aspirin Prophylaxis (high-risk)</li> </ul>	<ul> <li>Physical Activity/Exercise</li> </ul>	
Drug Use	Seat Belt Use	At la sati sa sa si U
<ul> <li>Family Planning</li> </ul>	<ul> <li>Statin Medication (high-risk)</li> </ul>	At least annually
<ul> <li>Fall Prevention (age 65 and older)</li> </ul>	<ul> <li>Unintentional Injuries</li> </ul>	
SCREENINGS/PROCEDURES*		
Women (Preventive care for pr	regnant women, see Maternity sec	tion.)
Bone Mineral Density (BMD) Test		9-64, test if postmenopausal and at risk for osteoporosis.
		and not previously diagnosed with BRCA-related cancer and who
BRCA Screening/Genetic Counseling/		r. BRCA testing once per lifetime if recommended by your healthcare
Testing	provider.	
Domestic/Interpersonal/Partner	Age 19 and older: Screening annually and c	ffer support services as determined by your healthcare provider.
Violence Screening and Support		
Mammogram (2D or 3D)	Beginning at age 40, every 1-2 years. Includ	les one additional MRI or Ultrasound if at high risk for breast cancer.
Obesity in Midlife Women	Age 40-60 with normal to overweight body n	nass index (BMI), offer counseling to prevent obesity.
Pelvic Exam/Pap Smear/HPV DNA	Pelvic Exam/Pap Smear: Age 21-65: every	3 years; HPV DNA: Age 30-65, every 5 years.
Men		
Abdominal Aortic Aneurysm Screening	Age 65-75, one-time screening for abdomination	al aortic aneurysm in men who have ever smoked.
Prostate Cancer Screening	Beginning at age 50, annually. Begin at age	19 for high-risk males.
Prostate Specific Antigen	Beginning at age 50, annually.	
Men and Women		
Alcohol Use Screening/Counseling	Age 19 and older: Offer behavioral counselir drinking.	ng interventions for adults who are engaged in risky or hazardous
Anxiety/Depression Screening	Age 19 and older: Annually or as determined	d by your healthcare provider.
Cardiovascular Disease Prevention	Age 19 and older at increased risk of cardio	vascular disease (CVD); screening and offer behavioral counseling.
Oblemulie and Conservation Test	Age 19-24 years, test all sexually active wor	nen and 25 years and older test based on individual risk and
Chlamydia and Gonorrhea Test	recommendation by your healthcare provide	r. Test as recommended when prescribed HIV PrEP.
CT Colonography <sup>2</sup>	Beginning at age 45, every 5 years.	
Colonoscopy <sup>3</sup>	Beginning at age 45, every 10 years.	
Diabetes Screening	Age 35-70, screening and testing if overweig behavioral counseling.	ht or obese. If normal, rescreen every 3 years. If abnormal, offer
Fasting Lipid Profile	Beginning at age 20, every 5 years.	
Fecal Occult Blood Test (gFOBT/FIT) <sup>4</sup>	Beginning at age 45, annually.	
FIT-DNA Test	Beginning at age 45, every 1-3 years.	
Flexible Sigmoidoscopy <sup>3</sup>	Beginning at age 45, every 5 years.	
Hepatitis B Test	Age 19 and older if at high risk. Periodic rep	eat testing with continued risk factors.
Hepatitis C Test	Age 19 and older, offer one-time testing. Pe	riodic repeat testing with continued risk factors.
High Blood Pressure (HBP)	-	ther risk factors. Age 40 and older, or younger if at increased risk, test

Schedule of Preventive Care Services 01/01/2025

HIV PrEP Medication with related	If prescribed HIV Preexposure Prophylaxis (PrEP) medications, offer related testing and counseling services as
Testing/Counseling	determined by your healthcare provider.
HIV Test	Age 19-65, offer one time testing with unknown risk for HIV. Periodic repeat testing with continued risk factors.
Latent Tuberculosis (TB) Infection Test	Age 19 and older at high risk, offer one time testing. Periodic repeat testing with continued risk factors.
Low-dose CT Scan for Lung Cancer	Age 50-80 at high risk, test annually until smoke-free for 15 years.
Obesity/Weight Loss Interventions	Age 19 and older with a BMI of 30 or greater: Offer behavioral interventions.
STI Counseling	Age 19 and older at increased risk: Behavioral counseling as determined by your healthcare provider.
Skin Cancer Prevention Counseling	Age 19-24: Counseling to minimize exposure to ultraviolet (UV) radiation for adults with fair skin.
Syphilis Test	Age 19 and older test if at high-risk. Periodic repeat testing with continued risk factors as determined by your healthcare provider.
Tobacco Use Assessment/ Counseling/Cessation Interventions	Age 19 and older: 2 cessation attempts per year including behavioral counseling interventions (each attempt includes a maximum of 4 counseling visits of at least 10 minutes per session); Food and Drug Administration (FDA)-approved tobacco cessation medications. <sup>5</sup>
IMMUNIZATIONS**	
COVID-19	Age 19 and older: 2 or 3 dose primary series and booster.
Haemophilus Influenza Type B (Hib)	Age 19 and older: Based on individual risk or healthcare provider recommendation, 1 or 3 doses depending on indication.
Hepatitis A (HepA)	Age 19 and older: Based on individual risk or healthcare provider recommendation, 2, 3 or 4 doses.
Hepatitis B (HepB)	Age 19 and older: Based on individual risk or healthcare provider recommendation, 2 to 4 doses.
Human Papillomavirus (9vHPV)	Age 19-45: 2 or 3 doses, depending on age at series initiation or healthcare provider recommendation.
Influenza	Age 19 and older: 1 dose annually.
Measles/Mumps/Rubella (MMR)	Age 19 and older: Based on indication (born 1957 or later) or healthcare provider recommendation, 1 or 2 doses.
Meningococcal A, C, W, Y (MenACWY)	Age 19 and older: Based on individual risk or healthcare provider recommendation, 1 or 2 doses depending on indication, then booster every 5 years if risk remains.
Meningococcal B (MenB)	Age 19 and older: Based on individual risk or healthcare provider recommendation, 2 or 3 doses depending on indication, then booster every 2-3 years if risk remains.
Monkeypox (Mpox)	Age 19 and older based on individual risk or healthcare provider recommendation, 2 doses.
Pneumococcal (PCV15/PCV20/PPSV23)	Age 19 and older: Based on individual risk and healthcare provider recommendation, 1 or 2 doses.
Respiratory Syncytial Virus (RSV)	Age 60 and older: Based on individual risk and healthcare provider recommendation, 1 dose annually.
Tetanus/Diphtheria/Pertussis (Td/Tdap)	Age 19 and older: 1 dose of Tdap, then Td or Tdap booster every 10 years.
Varicella/Chickenpox (VAR)	Beginning at age 19: 1 or 2 doses (born 1980 or later) based upon past immunization or medical history.
Zoster/Shingles (RZV)	Age 19 and older: Based on individual risk or healthcare provider recommendation, 2 doses.

1 Coverage is provided without cost-share for all FDA-approved contraceptive methods. See the Rx Preventive Coverage List at <u>capitalbluecross.com</u> for details. Coverage includes clinical services, including patient education and counseling, needed for provision of the contraceptive method. If a member's provider recommends a specific FDA-approved method based on medical necessity, the service or item is covered without cost-sharing.

<sup>2</sup> CT Colonography is listed as an alternative to a flexible sigmoidoscopy and colonoscopy.

3 Only one endoscopic procedure is covered at a time.

4 For gualac-based testing (gFOBT), six stool samples are obtained (2 samples on each of 3 consecutive stools, while on appropriate diet, collected at home). For immunoassay testing (FIT), specific manufacturer's instructions are followed.

5 Refer to the most recent formulary located on the Capital Blue Cross website at capitalbluecross.com.

### Schedule for Maternity

### SCREENING/PROCEDURES\*

The recommended services listed below are considered preventive care (including prenatal visits) for pregnant women. You may receive the following screenings and procedures at no member cost share:

- Alcohol Use Screening/Counseling
- Anemia Screening (CBC)
- Anxiety/Depression Screening (prenatal/postpartum)
- Breastfeeding Support/Counseling/Supplies
- Gestational Diabetes Screening (prenatal/postpartum)
- Healthy Weight Gain during Pregnancy
- Hepatitis B Screening (first prenatal visit)
- HIV Screening•
- Low-dose Aspirin Therapy (after 12 weeks gestation with high- risk for preeclampsia)

- · Preeclampsia Screening
- Rh Blood Typing
- Rh Antibody Testing for Rh-negative Women
- Rubella Titer
- STI Screening/Testing (Chlamydia/Gonorrhea/Syphilis)
- Tobacco Use Assessment, Counseling and Cessation Interventions
- Urine Bacteria Screening (Asymptomatic)
- Other preventive services may be available as determined by your
- healthcare provider

\* Services that need to be performed more frequently than stated due to specific health needs of the member and would be considered medically necessary may be eligible for coverage when submitted with the appropriate diagnosis and procedure(s) and are covered under the core medical benefit. If a clinician determines that a patient requires more than one well-woman visit annually to obtain all necessary recommended preventive services, the additional visits will be provided without cost-sharing. Occupational, school, and other "administrative" exams are not covered.
\*\* Refer to the guidelines set forth by the Centers for Disease Control and Prevention (CDC) for additional immunization information.

## Schedule for Children: Birth through the end of the month child turns 19 years old

### **GENERAL HEALTHCARE**

Routine History and Physical Examination - Recommended Initial/Interval of Service:

Newborn, 3-5 days, by 1 month, 2 months, 4 months, 6 months, 9 months, 12 months, 15 months, 18 months, 24 months, and 30 months; and 3 years to 19 years annually

#### Exams may include:

- Blood pressure (risk assessment up to 21/2 years)
- Body mass index (BMI; beginning 2 years of age)
- Developmental milestones surveillance (except at time of developmental screening)
- Head circumference (through 24 months)
- Height/Length/Weight
- Newborn evaluation (including gonorrhea prophylactic topical eye medication)
- Sudden cardiac arrest/death (risk assessment beginning 11 years of age)
- Weight for Length (through 18 months)

- Anticipatory guidance for age-appropriate issues including:
  - Growth and development, obesity prevention, physical activity and psychosocial/behavioral health
  - Breastfeeding/nutrition/support/counseling/supplies
  - Safety, unintentional injuries, firearms, poisoning, media access
  - Contraceptive methods/counseling (females)
  - Alcohol, tobacco, or drug use assessment/education
  - Oral health risk assessment/dental care/fluoride supplementation (greater than 6 months)<sup>1</sup>
  - Fluoride varnish painting of primary teeth (up to age 5 years)
  - Folic Acid (childbearing age)

1 Fluoride supplementation pertains only to children who reside in communities with inadequate water fluoride.

<sup>2</sup> Encourage all PA Children's Health Insurance Program (CHIP) Members to undergo blood lead level testing before age 2 years. If not previously tested, test between the ages of 3 to 6 years old. <sup>3</sup> Refer to the most recent formulary located on the Capital Blue Cross web site at <u>capitalbluecross.com</u>.

4 Children aged 6 months to 8 years who are receiving influenza vaccines for the first time should receive 2 separate doses (greater than 4 weeks apart), both of which are covered.

\* Services that need to be performed more frequently than stated due to specific health needs of the member and would be considered medically necessary may be eligible for coverage when submitted with the appropriate diagnosis and procedure(s) and are covered under the core medical benefit. If a clinician determines that a patient requires more than one well-woman visit annually to obtain all necessary recommended preventive services, the additional visits will be provided without cost-sharing. Occupational, school, and other "administrative" exams are not covered.

\*\* Refer to the guidelines set forth by the Centers for Disease Control and Prevention (CDC) for additional immunization information including special situations and catch-up vaccinations if necessary.

This preventive schedule is periodically updated to reflect current recommendations from the U.S. Preventive Services Task Force (USPSTF); Health Resources and Services Administration (HRSA), National Institutes of Health (NIH); NIH Consensus Development Conference Statement, March 27–29, 2000; Advisory Committee on Immunization Practices (ACIP); Centers for Disease Control and Prevention (CDC); American Diabetes Association (ADA); American Cancer Society (ACS); Eighth Joint National Committee (JNC 8); U.S. Food and Drug Administration (FDA), American Academy of Pediatrics (AAP), Women's Preventive Services Initiative (WPSI).

Healthcare benefit programs issued or administered by Capital Blue Cross and/or its subsidiaries, Capital Advantage Insurance Company®, Capital Advantage Assurance Company® and Keystone Health Plan® Central. Independent licensees of the Blue Cross and Blue Shield Association. Communications issued by Capital Blue Cross in its capacity as administrator of programs and provider relations for all companies.
